

Alicia Kepner
AAS Rockford Business College
Certified Medical Assistant

In my time here at Highland Community College I have served in many roles. I started at HCC in 2009 as a part-time instructor for the Medical Assistant program which was new to the college. After starting, I took on the challenge of getting our MA program accredited through CAAHEP. In August of 2010 I took a full time position with HCC as the Medical Assistant Program Coordinator/Instructor. In September of 2011 our MA program received official notification of receiving programmatic accreditation. In August of 2013 I took on the role of the Nursing & Allied Health Coordinator. In the Fall of 2015 I became full-time MA faculty. Most recently, in Fall of 2017 I returned to my position of Nursing & Allied Health Coordinator/Instructor.
