## Information Systems (206)

## ASSOCIATE OF APPLIED SCIENCE

## About Our Program

This program is intended to provide the graduate with the entry-level job skills necessary in an information technology field. Candidates for the degree must choose an emphasis area for their specialty.

## Program Outcomes

Students who complete this program of study will be able to:

- Apply computing knowledge appropriate to the emphasis/ discipline.
- Solve problems in an information technology environment.
- Demonstrate professional behavior and ethical conduct.
- Demonstrate appropriate social and communication skills.
- Analyze the local and global impact of computing on society.
- Utilize data to help in the decision making process.

## Nature of Work and Employment

Graduates with this degree typically work as computer programmers, computer technicians, technical support staff, network specialists, office administrators, or in information technology system sales.

## Special Considerations

Information Systems majors need to be well organized and precise. Certain required courses may be waived or credit allowed through proficiency testing. A workplace experience is encouraged and may be made available.
